

RELIANCE SHEEP NUTS

Reliance Sheep Nuts are designed to supplement pasture, particularly in times of low pasture growth and/or poor pasture quality.

KEY FEATURES AND BENEFITS

- Quality ingredients in a 10mm nut to ensure optimum utilisation and reduced wastage
- High levels of digestible energy and metabolisable energy (ME) compared with other supplements such as forages
- Highly digestible ingredients for late pregnancy when feed intake is limited
- Molasses for increased palatability
- A wide range of essential vitamins, minerals and trace elements for flock health and production. This includes vitamins A, D₃ and E, as well as trace minerals such as zinc, selenium, iodine, cobalt, and manganese

Reliance Feeds are part of our quality assurance program and are quality tested to meet their stated specifications.

FEEDING RECOMMENDATIONS

All Sheep: Typical feeding rate is 150g/head/day.

Optimum feeding rates depend on pasture availability and quality and the age and condition of the sheep. The nuts can be fed at higher levels if required.

Transition onto **Reliance Sheep Nuts** by starting with 50g/head/day for a week before building up to 150g/head/day over the following 1 to 2 weeks.

Ensure an adequate amount of forage (hay, baleage, silage, pasture) is always available.

Ensure sheep always have access to fresh, clean drinking water.

Contains nutritional levels of cobalt, iodine, copper, manganese, zinc, and selenium, as well as vitamins A, D₃ and E. If supplementing these trace elements in other ways (pasture, drench, injection, fertiliser or prill), these should only be given following consultation with a nutritionist or veterinarian.

Reliance Sheep Nuts are suitable for feeding non-lactating and lactating sheep.

Product available in South Island only as 25kg bags, or made to order (minimum quantity 6 tonnes) in 1T Bulk Bags and Loose Bulk.

INGREDIENTS SELECTED FROM

Barley, wheat, oil seed meals (may contain up to 10% of palm kernel expeller meal), wheat by-products, grass fibre, soyabean meal, canola meal, maize, legumes (peas or beans), molasses, sodium bentonite, limestone flour, salt, vitamins (including A, D₃, E), trace minerals (including cobalt, copper, iodine, manganese, selenium, and zinc), vegetable oil, mould inhibitor, flavour.

Ingredients selected to avoid excess copper which can be deleterious especially to some breeds of sheep. May contain or be sourced from genetically modified source crops.

Reliance Sheep Nuts do not contain any restricted animal material.

MARKETED AND DISTRIBUTED BY FARMLANDS CO-OPERATIVE SOCIETY LIMITED

RECYCLE ME

AGRECOVERY

RELIANCE SHEEP NUTS

TYPICAL ANALYSIS[^] (APPROXIMATE ON A DRY MATTER BASIS)

Metabolisable Energy* MJ ME/kg	12.2
Crude Protein %	12.2
Dry Matter %	86
Selenium mg/kg	1

[^]Variations in nutritional values may occur due to natural variability in feed ingredients. Our FeedSafe NZ certified sites have well developed systems to minimise any variation from the typical levels shown.

*The Metabolisable Energy (ME) values are calculated by a registered laboratory from an equation and are not an actual measured value. Therefore, they are only a guide for predicting the energy content of a feed.

STORAGE

Store in a cool, dry and vermin free environment out of direct sunlight.

DO NOT FEED TO ANIMALS OTHER THAN THOSE STIPULATED ON THIS LABEL

RECYCLE ME

Reliance bags with the Recycle Me logo use 25% less plastic per bag compared to previous versions, giving them a lower carbon footprint and enable their recyclability through Agrecovery. Reliance bags are made from woven polypropylene. Scan the QR code below for more information.
