

# RELIANCE CALF 2000

Reliance Calf 2000 is a 20% protein, mineralised and vitamised calf feed designed to support rumen health and calf growth.

## KEY FEATURES AND BENEFITS

- Provides high digestibility for young calves
- Contains GutBoosta™ with prebiotics and essential oils
- Quality tested to meet stated nutrient specifications
- Contains the coccidiostat Bovatec® 20CC
- Made from selected quality palatable ingredients
- Contains essential vitamins (including B vitamins) and minerals

## FEEDING RECOMMENDATIONS

Feed **Reliance Calf 2000** from the first week of life after good colostrum intake has been achieved. Offer fresh daily and clean out troughs regularly. Hand feeding immediately after milk feeds can encourage early intakes. Additional coccidiostat may be required in the milk until pellet intake is sufficient to aid in the control of coccidiosis.

Provide **Reliance Calf 2000** along with whole milk or quality calf milk replacer, and restricted access to long forage such as grass or hay if housed, or if grazing is limited or very leafy. Ensure calves always have access to reachable, clean fresh drinking water.

Wean off milk gradually at a minimum 6 weeks of age, and/or, 65-80kg when consuming between 1 to 1.5kg of **Reliance Calf 2000**, depending on calf size and breed. Continue to feed **Reliance Calf 2000** at 1-1.5kg/head/day for 1-2 months after weaning from milk, transitioning to a 16% version if pasture quality permits.

Product available in South Island only in 25kg bags, or made to order (minimum quantity 6 tonnes) as 1T Bulk Bags and Loose Bulk.

## INGREDIENTS SELECTED FROM

Barley, wheat, maize grain, grain by-products, peas, beans, soyabean meal, oilseed meals, molasses, vegetable oils, major minerals, trace minerals, vitamins (including A, D<sub>3</sub> and E, range of B vitamins including Biotin), prebiotic, essential oils, coccidiostat (Bovatec® 20CC), mould inhibitor, flavour.

**Reliance Calf 2000** has been formulated without PKE, may contain traces of PKE used in the feed mill. May contain or be sourced from genetically modified source crops. **Reliance Calf 2000** does not contain any restricted animal material.

Contains added macro and trace minerals. If supplementing copper, selenium, and other trace elements (apart from calf milk powder) in other ways (e.g., pasture, drench, injection, fertiliser or prill), these should only be given following consultation with a nutritionist or veterinarian.

# RELIANCE CALF 2000

## TYPICAL ANALYSIS<sup>^</sup> (APPROXIMATE ON A DRY MATTER BASIS)

Crude Protein %	20
Dry Matter %	87
Metabolisable Energy** MJ ME/kg	13

<sup>^</sup>Variations in nutritional values may occur due to natural variability in feed ingredients. Our FeedSafe NZ certified sites have well developed systems to minimise any variation from the typical levels shown.

\*\*The Metabolisable Energy (ME) values are calculated by a registered laboratory from an equation and are not an actual measured value. Therefore, they are only a guide for predicting the energy content of a feed.

## STORAGE

Store in a cool, dry vermin free environment out of direct sunlight. Remove pallet wrap when in final location to prevent sweating.

## COCCIDIOSTAT

### WARNING STATEMENTS

#### ANGER

KEEP OUT OF THE REACH OF CHILDREN

FOR ANIMAL TREATMENT ONLY

READ LABEL BEFORE USE

Reliance Calf 2000 calf feed with 500g Bovatec<sup>®</sup> 20CC/tonne.

**ACTIVE INGREDIENT:** Lasalocid sodium 100mg per kilogram

**CONTAINS:** 500g Bovatec<sup>®</sup> 20CC/tonne, which is registered pursuant to the ACVM Act 1997, No. A009679.

See [www.foodsafety.govt.nz](http://www.foodsafety.govt.nz) for registration conditions.

**DIRECTIONS FOR USE:** This product must not be used for growth promotion in ruminants intended for human consumption. By law the user must take due care, obtaining expert advice if necessary to avoid unnecessary pain and distress when using the product other than as directed on the label.

**INDICATIONS:** Delivers 100mg of Lasalocid sodium/kg as 500g Bovatec<sup>®</sup> 20CC/tonne, as an aid in the control of

coccidiosis caused by Eimeria species in cattle. Feed 0.5kg of **Reliance Calf 2000** per 50kg calf to provide 1mg of Lasalocid per kg of body weight.

Ensure young animals have access to **Reliance Calf 2000** at least 2-3 weeks prior to weaning as coccidial challenge is most likely to occur in the first eight weeks after weaning.

**DOSE RATE:** For coccidiosis control, minimum dose rate of 5mg Bovatec<sup>®</sup> 20CC/kg liveweight (1mg lasalocid sodium/kg liveweight) is required per day. Up to twice this dose rate is indicated where severe coccidial challenge is expected or a wide range of individual liveweights occur within a group.

**CONTRAINDICATIONS:** Care must be exercised when feeding concurrently with other antimicrobials. Do not feed with other ionophores, e.g. monensin capsules, liquid or premix. Do not exceed recommended dose rates.

**CAUTION:** Do not allow dogs, horses (or other equids), alpacas (or other camelids) access to feeds containing Bovatec<sup>®</sup> 20CC, as ingestion by these species may be fatal.

**WITHHOLDING PERIOD:** It is an offence for users of this product to cause residues exceeding the relevant MRL in the Food Notice: Maximum Residue Levels for Agricultural Compounds.

### Cattle

Meat: Nil

Milk: Nil

**Not for use in bobby calves**

**DISPOSAL:** avoid contamination of any water supply with this feed or its empty bag.

**DO NOT FEED TO ANIMALS OTHER THAN THOSE STIPULATED ON THIS LABEL**

## RECYCLE ME

Reliance bags with the Recycle Me logo use 25% less plastic per bag compared to previous versions, giving them a lower carbon footprint and enable their recyclability through Agrecovery. Reliance bags are made from woven polypropylene. Scan the QR code below for more information.
