

# RELIANCE CALF MILK REPLACER

Reliance Calf Milk Replacer is a milk powder blend providing excellent calf response to the natural feed sources of milk fat, milk proteins and sugar.

## KEY FEATURES AND BENEFITS

- Formulated to contain 25% crude protein to support growth and frame, whilst balancing our typically higher fat Kiwi cow's milk
- Crude fat level of 20% that is ideal for providing enough energy for our Kiwi born calves
- Mixes easily and can be fed alone or added to milk to extend stocks or fortify
- Contains casein based milk powder
- Contains essential vitamins, and organic acids
- Contains organic trace minerals that are more available to the calf

Product available in 20kg bags (only available in South Island)

## MIXING

MIXING RATIO: 125g **Reliance Calf Milk Replacer** made up to one litre with water when fed twice daily, 250g **Reliance Calf Milk Replacer** made up to one litre with water when fed once daily.

Refer to the feeding recommendations below and add required amount of **Reliance Calf Milk Replacer** powder to half the volume of hot water (48°C), not boiling water. Mix briskly for 1 minute to a creamy smooth consistency and add cool water to make up the required amount (e.g. make up to 1L, do not add 1L water to 125g powder).

AGE IN DAYS	LITRES PER FEED	GRAMS PER DAY *	ONCE A DAY SYSTEM		TWICE A DAY SYSTEM	
			NO. FEEDS PER DAY	CONCENTRATION	NO. FEEDS PER DAY	CONCENTRATION
1 - 4	2.5	-	2	Colostrum Only	2	Colostrum Only
5-14	2	500	2	125 grams/litre	2	125 grams/litre
15-28	2.5	625	1	250 grams/litre	2	125 grams/litre
29 - weaning	2.5-3	625-750	1	250 grams/litre	2	125 grams/litre

\*Higher feeding rates may be applicable - customised feeding plans are available on request if required.

# RELIANCE CALF MILK REPLACER

## FEEDING RECOMMENDATIONS

- Feed at body temperature (38-39°C)
- Mix only when required. Keep bag securely closed when not in use
- Feed after a good intake of colostrum has been achieved (from four days after birth)
- Ensure that reachable fresh clean drinking water is available at all times
- Ensure that calves have access to quality calf feed and restricted access to hay or straw
- Keep buckets, bottles, and other equipment clean

## INGREDIENTS SELECTED FROM

Milk powder, vitamins (including A, D<sub>3</sub>, E, K<sub>3</sub>, B<sub>1</sub>, B<sub>2</sub>, B<sub>3</sub>, B<sub>5</sub>, B<sub>6</sub>, B<sub>12</sub>, ascorbic acid, niacin, pantothenic acid, Biotin), cobalt (organic), copper (organic), ferrous iron, iodine, selenium (organic), magnesium, manganese (organic), zinc (organic), dextrose, coccidiostat (Bovatec® 20CC), antioxidants, lecithin.

Note: Milk powder is casein based which typically curds but curd strength may be variable.

**Reliance Calf Milk Replacer** does not contain any restricted animal material.

## TYPICAL ANALYSIS (APPROXIMATE ON AN 'AS FED' BASIS)

Crude Protein %	25	Lactose %	44
Crude Fat %	20	Ash %	6

## STORAGE

Store between 10 and 20°C in a clean, cool, dry and vermin-free environment. Do not expose to direct sunlight and avoid contact with floor and wall.

## COCCIDIOSTAT

### WARNING STATEMENTS

#### DANGER

**KEEP OUT OF THE REACH OF CHILDREN  
FOR ANIMAL TREATMENT ONLY**

**READ LABEL BEFORE USE**

**NOT FOR HUMAN CONSUMPTION**

**Reliance Calf Milk Replacer with 500g Bovatec® 20CC/tonne**

**ACTIVE INGREDIENT:** Lasalocid sodium 100mg per kilogram

**CONTAINS:** 500g Bovatec® 20CC per tonne, which is registered pursuant to the ACVM Act 1997, No. A009679. See [www.foodsafety.govt.nz](http://www.foodsafety.govt.nz) for registration conditions.

**DIRECTIONS FOR USE:** This product must not be used for growth promotion in ruminants intended for human consumption. By law the user must take due care, obtaining expert advice, if necessary to avoid unnecessary pain and distress when using the product other than as directed on the label.

**INDICATIONS:** Delivers 100mg Lasalocid sodium per kilogram as 500g Bovatec® 20CC/tonne, as an aid in the control of coccidiosis caused by Eimeria species in cattle.

Ensure young animals are adapted to medicated feed for 2-3 weeks prior to weaning, as coccidial challenge is most likely in the 8 weeks after weaning. In any case, initiate treatment at least 2 days prior to coccidial challenge.

**DOSE RATE:** For coccidiosis control, minimum dose rate of 5mg Bovatec® 20CC/ kg liveweight (1mg Lasalocid sodium per kg liveweight) is required per day, (500 grams **Reliance Calf Milk Replacer** per 50kg liveweight).

Up to twice this dose (2mg Lasalocid sodium per kg live weight) is indicated where severe coccidial challenge is expected or a wide range of individual liveweights occur within a group.

# RELIANCE CALF MILK REPLACER

**CONTRAINDICATIONS:** Care must be exercised when feeding concurrently with other antimicrobials. Do not feed with other ionophores, e.g. monensin capsules, liquid, or premix. Do not exceed recommended dose rates.

**CAUTION:** Do not allow dogs, horses (or other equids), alpacas (or other camelids) access to feeds containing Bovatec® 20CC, as ingestion by these species may be fatal.

**WITHHOLDING PERIOD:** It is an offence for users of this product to cause residues exceeding the relevant MRL in the Food Notice: Maximum Residue Levels for Agricultural Compounds.

## Cattle

**Meat:** Nil

**Milk:** Nil

**Not for use in bobby calves**

**DISPOSAL:** Avoid contamination of any water supply with this feed or its empty bag.

**DO NOT FEED TO ANIMALS OTHER THAN THOSE STIPULATED ON THIS LABEL**

## RECYCLE ME

Reliance bags with the Recycle Me logo use 25% less plastic per bag compared to previous versions, giving them a lower carbon footprint and enable their recyclability through Agrecovery. Reliance bags are made from woven polypropylene. Scan the QR code below for more information.
